

Insulation Installer

We are looking for a candidate to work as a general laborer in our business. We do Blown Insulation and Spray Foam insulation in residential settings. Minimum starting pay for this position is \$10 per hour. We use blower doors and Infra Red to define work, then use cellulose and foam to correct deficiencies in the building envelope. We are in the process of bringing this approach to commercial work.

We offer subsidized Health Insurance after 6 months and holiday/vacation/pension after one year. For a complete Job description, please e mail a resume to warminup@insulationman.com .

A pre employment Drug Test will be administered, and random drug testing is part of employment here. This is a drug free work place.

All employees must have a valid driver's license; we will perform a pre employment driving history investigation as part of our insurance oversight requirement.

Employees in this position typically average 38 hours per week on an annual basis.
